Summary

Frontend Developer with a Passion for *Innovation and User Experience*

Hi, I'm Miguel, a Frontend Developer with a background in Graphic Design and over 10 years of experience creating intuitive, user-focused designs. I'm currently interning at Mesh Firm in Copenhagen, where I've worked on the front-end of an AI-powered Project Management Assistant.

With proficiency in the MERN stack (MongoDB, Express, React, Node.js), JavaScript (ES6), and TypeScript, I focus on building dynamic web applications. I'm skilled at turning Figma mockups into high-quality code and thrive in team environments where collaboration and problem-solving are key.

I'm excited to bring my passion for creating seamless user experiences and my love for learning new technologies to Maersk Tankers.

Relevant Experience

Frontend Developer Intern   08/2024—Present
